WILLIAM AND MARY ROSS FOUNDATION

TMC HEALTHCARE
Today I am going to Children’s Museum Oro Valley! I will explore and play in the exhibits and have fun learning with my group.

When I get to the museum, I might have to be patient and wait in line to check in. The person checking us in works at the Museum and is there to help me.

There is a lot to see at the museum and there might be other visitors in the museum, so I may need to take turns and share toys.

Let’s get started!
Farmer’s Market

One exhibit we might visit is FARMER’S MARKET. This exhibit has stands filled with pretend food and a cash register. Lots of visitors love this area, so I may need to share and take turns.

In this exhibit, I can:
- Pretend to shop and put fruits and vegetables in the bags.
- Weigh the pretend food on the scales.

Toddler Town

Another exhibit we might visit is TODDLER TOWN. This exhibit has large houses and sits on a grassy hill.

In this exhibit, I can:
- Explore the different sides of houses with my hands and try to spy objects inside.
- Try to keep my balance as I walk across the hill.
Art Studio

Another exhibit we might visit is ART STUDIO. This exhibit has lots of materials all over that I can use to make anything I want! I can color, glue, and use scissors. This exhibit is great for those who like to touch and experiment with hands-on materials.

In this exhibit, I can:
- Use the different materials to create anything I want, like a monster or a superhero.
- Paint on the glass surface by the sink.

Peek-a-Boo Palace

Another exhibit we might visit is PEEK-A-BOO PALACE. This exhibit has a fun climber with stairs and a slide. I will need to remember to be safe and watch out for other visitors playing around me.

In this exhibit, I can:
- Try on costumes and pose in the silly mirrors.
- Build with the blue blocks that live under the climbing structure.
Amazing Airways!

Another exhibit we might visit is AMAZING AIRWAYS. This exhibit has the large plastic tubes on the wall that I can put scarves into! This area can be very noisy and busy and is great for physical and auditory learners.

In this exhibit, I can:

○ Take turns pushing the scarves into tubes and watch them zoom around in the tube until they pop out.
○ Try to catch the scarves as they fall to the ground.

Lullaby Lounge

Another exhibit we might visit is LULLABY LOUNGE. This exhibit is usually for infants only, but I can go inside if I enter through the gate and play gently with the toys.

In this exhibit, I can:

○ Use my hands to explore all the different textures on the wall.
○ Sit on the benches and play with the toys. This area is great if I need a quiet space.
Literacy Corner

Another exhibit we might visit is LITERACY CORNER. This exhibit has lots of books and puzzles that I can explore.

In this exhibit, I can:
- Sit in the reading nooks and look out the little window behind me. If I need my own space to be alone, this is a great spot to sit.
- Try to find the letters of my name in the giant letter tree.

Courtyard

Outside the museum is the courtyard, where I can sit at the picnic tables or run around outside.

In this exhibit, I can:
- Build a fort
- Bang on the colorful instruments. When the instruments get played, they can be very loud if I hit them hard.
Restrooms

If I need to go to the bathroom, I can use the bathrooms in the back of the museum by AIRWAYS. Sometimes, the bathroom can be loud from the fan blowing and the toilet flushing.

Quiet Space

I might get overwhelmed by people and noises and I might need a place to sit quietly. I can go sit on the benches in LULLABY LOUNGE. I can also sit in the reading nooks in the LITERACY CORNER.

Food

If I need to eat my snack, I can sit at the picnic tables outside in the COURTYARD. I can bring a bottle of water if I need a drink. There is also a bottle filler by the bathrooms if I need a refill.

Thank you for visiting
Children’s Museum Oro Valley!
